

NEUROLOGY - MD (NRY)

NRX 311 Neurology 4 cr

This rotation includes time on both inpatient and outpatient services, including performing hospital and Emergency Room consultations. The student will become proficient in performing a neurological examination and will learn the basic principles underlying diagnosis and management of the most common neurologic disorders.

NRX 400 Neurology Externship 1-4 cr

To be determined.

NRX 411 Neurology 4 cr

Four-week rotation in neurology, including time spent on the USAMC service, performing ER and hospital consults and in out-patient clinics, including offices of private Neurologists.

NRX 444 Spec Elec-Neurology 1-4 cr

To be prepared by the student in conjunction with the Course Director and approved by the Vice Dean before course can be added to schedule. This course is designed to offer students and faculty/clinical faculty an opportunity to develop electives which are not offered in the Elective Manual. Such an elective may be made permanent and printed in the next edition of the Elective Manual at the request of the Course Director and with the approval of the Curriculum Committee. At the discretion of the Vice Dean, this elective may count as the required "in-house" elective.

NRX 450 Acting Intern - Neurology 1-4 cr

This is a four-week rotation in neurology, which provides advanced experience and clinical responsibilities in general neurology. Flexibility is provided to students to tailor their experiences in subspecialty areas, including stroke, epilepsy, multiple sclerosis, neuromuscular disease and clinical neurophysiology. The acting intern will take 5 overnight calls with the inpatient neurology service at the USA Medical Center alongside an upper level resident where the AI will function at the level of a first year neurology resident.

NRX 460 Clinical Outpatient Neurology 1-4 cr

This is a four-week rotation in neurology, which provides advanced experience and clinical responsibilities in general neurology. Flexibility is provided to students to tailor their experiences in subspecialty areas, including stroke, epilepsy, multiple sclerosis, neuromuscular disease and clinical neurophysiology.

NRX 480 Clinical Neurology 1-4 cr

Four-week rotation in neurology, including time spent on the USAMC service, performing ER and hospital consults and in outpatient clinics, including offices of private Neurologists.
