

# ULTRASOUND CERTIFICATE

## Degree Requirements

This certificate program is designed for:

- Registered Radiographers who wish to study an advanced modality as a means of continuing education.
- Registered Radiographers who already hold a baccalaureate degree in a major other than Radiologic Sciences and choose to study an advanced modality, without earning a second baccalaureate degree.

## Certification

Students who choose this track will **not** be eligible to seek ARRT certification in radiography, but **will** be eligible to apply for eligible to apply for ARRT and American Registry of Diagnostic Medical Sonographers (ARDMS) certification as an ultrasonographer upon completion of didactic and clinical requirements.
