## Department Information

### Graduate

In the event that a situation is not addressed below, the regulations governing that situation will be determined by the Graduate School.

### Master of Business Administration

The Mitchell MBA degree is accredited by the Association for the Advancement of Collegiate Schools of Business. It is a professional degree designed to enable individuals to study advanced concepts of business, industry, and government operations. The business environment is constantly changing and the coursework in the MBA program is designed to facilitate decision making within ambiguous and changing conditions. The program requires ten (10) courses each carrying three semester hours of credit.

### The Master of Accounting Degree Program

Students may earn a Master of Accounting degree in the Mitchell College of Business. The admissions requirements, academic regulations, and general degree requirements are similar to those required for the MBA Degree.

Students seeking the Master of Accounting degree are required to complete any of the foundation courses as designated by the Director of Graduate Studies. In addition, students must complete six (6) graduate accounting courses, two (2) general business courses, and two (2) elective courses. The entire program is on-line beginning fall semester 2018. Admission to the MAcc program is automatically approved upon application for USA Accounting graduates with an overall GPA of 3.0 and a GPA in the major of 3.0. These applicants may apply for a waiver of the GMAT exam.

### Admission Requirements for MBA and MAcc Programs

The Mitchell MBA has a Fall only admission policy. The MAcc program will consider admissions at other times of the academic year.

To be admitted to the graduate programs within the Mitchell College of Business, the following are required:

1. A bachelor's degree from an institution accredited by the appropriate United States accrediting agency or equivalent for international institutions;

3. Three (3) reference letters attesting to the qualifications of the applicant for graduate business study.
4. Applicants must take a graduate admissions test (GMAT or GRE) and report the score to the University of South Alabama. For details on this policy, check with the Office of Graduate Studies at the Mitchell College of Business.
5. A personal statement from the applicant explaining his/her career ambitions, the reasons for the applicant's application to the Mitchell College of Business and an explanation of why the applicant achieved the score that they achieved on the graduate admissions test.

6. Applicants may request a waiver of GMAT if they hold a regionally accredited (or equivalent) advanced degree or have a minimum of 3-5 years of demonstrated professional work experience in an applicable area. Applicants who are currently enrolled and in good standing in an advanced degree program in a business related field from an AACSB institution may also be considered.
7. International students must meet or exceed the University's standard for language proficiency.

There is a "non-degree seeking" category for registration. Students in this category must obtain permission of the Director of Graduate Studies before registering for any graduate courses in the Mitchell College of Business. A student must re-apply if no course work has been completed within one year after admission into the Master of Accounting or the Master of Business Administration programs.
